PATENTS PERTINENT TO THE GAS INDUSTRY
Acetylene Gas Generator and Holder Contained in One Casing 91
Acetylene Lamp Provided with Independent Gas Chamber..... 611
Ammonia Condenser Consists of Coils Over Which Water is Showered 223
Ammonia Generator Comprises Three Sections 164
Ammonium Nitrate Produced Through Use of Catalyzer.... 539
Apparatus for Condensing Ammonia Consists of Concentric Pipes 187
Apparatus for Converting the Heavy Products Obtained from Petroleum 111
Apparatus for Distilling Fuel.... 328
Apparatus for Mixing Gas and Air Maintains Same Proportions Regardless of Relative Pressures of Each..... 185
Apparatus for Moving Conveying Bridge 514
Apparatus for Producing Oil Gas. 513
Apparatus for Producing Pressure Gas Uses Water Chamber for Directing Flow of Gas..... 164
Apparatus for Treating Fabrics Uses Gas as Fuel..... 223
Apparatus Indicates the Composition of Gases..... 611
Ash Conveying System Provided With Removable Part..... 225
Attachment Provided for Gas Burners 400
Automatic Gas Cut-off Operates when Fusible Metal Melts.... 328
Both Illuminating or Producer Gas or a Combination of Both May Be Used for Heating Coke Ovens 111
Breathing Bag Provides Cool Air for Rescue Work..... 538
Burner Cock Provided with Means to Supply Gas to Main or Auxiliary Burner 399
Burner for Water Heater Also Heats Cooking Utensil..... 594
By-Product Coke Oven Responsible for Much of Refractories Investigation 225
C.E-Z Type of Mantle..... 448
Chain Tongs Are Provided with a Spring 186
Coal Agitator for Mechanical Stokers Is Operated by Reciprocating Plunger 66
Coal Handled by Portable Screening Rig 399
Coal Handling Apparatus Allows Delivery of Coal at One Part of Storage Space While Removing It from Another.... 223
Coal Range Equipped to Burn Gas. 186
Coal Range to Gas by False Bottom 399
Coal Stove Convertible Into a Gas-Burning Range 223
Coke Made from a Mixture of Breeze and Pitch..... 400
Coke Oven Construction..... 225
Coke Oven May be Heated at Option With Either Rich or Lean Gas 225
Coke Ovens Have Flues Connected Together at Ends..... 514
Cold Water Supply Connected to Tank by New Form of Coupling 185
Combination Monkey and Stillson Wrench, A 185
Combined Gas and Solid Fuel Range Has Burner Placed Beneath Cooking Hole..... 539
Combustion Chamber Formed by Recesses in Piston Heads.... 66
Composition Fuel or Fire Lighter. 594
Conduits Convey Heat From Burner Chamber to Oven in Combination Gas and Coal Range 539
Continuous Distillation Used for Deriving Products from Tar.. 513
Control of Pressure of Blower System Is Operated Automatically 328
Conveyor Provided with Adjustable Troughing Rollers..... 130
Crude Petroleum or Heavy Distillates of Petroleum Converted into Lighter Products in New Process..... 92
Device Assures Regular Supply of Gas and Prevents Burner Stoppages 514
Device Prevents Boring Head Becoming Separated from Socket. 594
Device Prevents Tampering With Gas Meter Connections, This. 112
Device Prevents Tampering with Meter Unions 447
Device Prevents Water Flowing Into Oil or Gas Wells..... 186
Device Provided for Automatically Dumping Small Cars..... 448
Distribution of Heating Gases Carefully Worked Out in This Coke Oven 448
Double Set of Condensers are Provided in this Apparatus for Destructive Distillation, A.... 163
Dry Meter Equipped with Ball Valve 538
Either Heated or Cold Air May Be Admitted to Internal Combustion Engine by This Device. 91
Flames from Gas Burners Directed Inwardly in This Range..... 447
Floor Heater Consists of Gas Burner Mounted in a Heat Chamber 537
Flow Meter Utilizes Vibrations to Indicate Rate 537
Flow of Gas to Flues Controlled by Hinged Members 514
Flue Lining Insures Uniform Air Space 225
Flue Pipe Enters Chimney at Angle 448
Frame Equipped to Supporting Several Pipes 594
Furnace Composed of Two Concentric Vessels 448
Gas Burners Equipped with Radial Ports 91
Gas Burner Provided with Adjustable Sleeve to Shift Base part of Flame 537
Gas Engine Igniter is New Type of Spark Plug 66
Gas Engine Provided with Rotatable Intake Exhaust Valve. 538
Gas Follows Special Path in Tar Extractor 448
Gas Igniter Composed of Cerium and Magnesium 225
Gas in Range Automatically Turned On or Off..... 400
Gas Lamp Provided with Flash Pilot Lighted by Abrasion.... 327
Gas Meter Provided with Adjustment for Outside..... 539
Gas Pressure Regulator Consists of Two Tanks 513
Gas Producer Has Steam Generator on Top 131
Gas Range Burner Provided with Branches 448
Gas Range Valves Equipped with Safety Attachments 513
Gas Stove Equipped with Double Manifold 593
Globe Shade Holder Slides over Pillar 537
Gas Shut-Off Valve Restricts Flow of Gas 448
Gas Tight End Provided for Flexible Tubing 539
Gas Torch Equipped with Pilot Light 538
Gas Used to Heat Water and Air for Dentist's Use..... 131
Gas Valve Closes When Pressure Is Reduced and Again Renewed.. 327

Gas Water Heater Built on New Principle 224
Handle for Cutting Tools or Die Stocks Contains Oil Necessity in Operation 611
Heat Supplied to Coke Oven Is Equalized 327
Heated Tube Conveys Gas to Burners 399
Heater Consists of Two Refractory Shells 538
Heater for Type Metal Melting Pot Consists of Gas Burners..... 593
Heating Attachment May Be Fastened to Gas Burners..... 594
Hoods to be Attached to Gas Burners 594
Hot Water May Be Drawn Direct from Heater or Stored in Tank 224
Incinerating Apparatus Uses Gas for Fuel 539
Inclined Plate Is Used to Ignite the Oven Burners On This Gas Range 111
Integrating Mechanism Provided for Flow Meter..... 223
Intermediate Carbonizing Section Used for Carbonizing Fuel... 66
Internal Combustion Engine is Equipped with Tubular Valves 164
Internal Combustion Engine Provided with Rotating Sleeve Valve 593
Inventor Claims This Device Saves Gas 448
Inventor Claims This Device Saves Gas by Reducing Pressure.... 225
Inverted Bowl Reinforced by Wire Mesh 400
Lantern Burns Either Acetylene Gas or Oil..... 91
Lighter for Acetylene Burners Operates Automatically 447
Lugs Prevent Gasket from Being Displaced 399
Machine Designed to Lay Pipe... 538
Machine Pushes or Pulls Pipe.... 131
Material for the Preservation of Lumber Consists of Coal Tar Products 594
Means Adopted to Assure Combustion in Combination Range... 447
Means Provided for Automatically Extinguishing Gas 223
Meter for Measuring Flow of Fluid Balances Weight Against Impulse 112
Meter Measures Flow of Gas by Orifice Measurement 593
Method of Making Acetaldehyde.. 400
Method of Making Combustible Gas Uses Intermediate Carbonizing Section 65
Method of Revivification Uses Lime and Steam or Hot Water 328
Method of Saving Oil or Gas When Drilling Well 186
Method of Supporting Stove Pipes. 400
New Oiling Device for Pipe Threading Machine Does Away With Oil Can..... 65
No Nut or Screw Used on this Monkey Wrench 112
Noise of Operation Prevented in Welding Torch 538
One Die Stock Used on Four Different Sizes of Pipes..... 187
Oven Door for Gas Ranges..... 185
Oven for Gas Stove May Be Divided into Two Sections.. 185
Oven Suitable for Combination Coal and Gas Ranges..... 328
Oxygen Generator for Resuscitating Machine Boiler for Compactness and Ease of Transportation 611
Pipe Cutter Provided with Two Cutting Dies 594
Pipe Hanger Holds Several Pipes. 209
Pipe Joints Formed by Compressing Plastic Gasket..... 514
Pipe Moulding Machine Operates by Compressed Air..... 92
Pipe Sleeve Prevents Leakage of Water Through Floors..... 187
Pipe Tongs Composed of Several Parts 186
Pipe Union Locks Pipe Ends Together 327
Piston Forces Fuel Into Cylinder of Internal Combustion Engine.. 65
Plunger Forces Coal Through Retort 611
Portable Photometer Equipped with Standard Lamp..... 611
Portable Tripod Derrick for Street Work 447
Position of Conveyor in Wagon Loader May Be Altered..... 399
Pressure Controlling Device Actuated by Weights and Pressure of Gas 163
Process for Absorbing Carbon Monoxid Uses Cuprous Compounds 66
Process for Making Phenols Makes Use of Nickel Catalyzer..... 209
Process for Preparing Hard Commercial Pitch Uses Cooling Agent and Centrifugal Action. 223
Process for Treatment and Recovery of Tar and Ammonia Liquor from Gas..... 539
Process of Compressing, Purifying, Drying and Cooling Gases.. 400
Process of Manufacturing Carburizing Material and Oil Distillates 186
Process of Preparing Kieselgurh Filler, The 400
Process of Separating Hydrocarbons from Gases..... 447
Producer Fired by Burned Gas from Gas Engine..... 447
Range Gas Cock Controlling Oven Burners Also Operates Damper Between Oven and Exhaust Flue 91
Ratchet Wrench Operates by Two-Toothed Pawls 185
Refractory Material Placed Over Gas Burner in the Range.... 538
Resuscitating Device Operated by Manual Means 593
Sad Iron Heated by Gas..... 537
Safety Device Prevents Inadvertent Opening of Wrong Burner Cock 224
Safety-Fuse Coupling Provided for Gas Tank Valves..... 538
Single Control Cock Operates Main Burner and Pilot Light. 224
Sleeve Prevents Stove from Coming Apart by Accident..... 164
Steam Boiler in Brick Setting Equipped with Gas Burner.. 594
Stove Pipes Prevented from Becoming Disjointed 448
Stove, Provided with One Set of Burners, Accomplishes All Desired Results 187
Sulphate of Pitch and Oily Material Used for Binder in Briquette Making 399
Swing-Joint Connection Allows Pipes to Lie in Any Plane.... 65
Swivel-Socket Provided for Gas Well Drills 447
Thermostat Controls Gas to Burners in Metal Melting Operations 187
Thermostats Used to Control Heat Supplied by Gas to Linotype Melting Pots 112
Thread Protector Engages Only Three Threads of Pipe End... 328
Toaster Is Equipped with Folding Supports 514
Triangular Wedges Used in the Valve Gate 224
Water Coils Held to Casing of Automatic Water Heater.... 514
Water Heater Consists of a Coil of Tubing with a Burner in the Center 514
Water Heater Consists of Grooved Pipes with Gas Pipes Lying in Grooves 513
Water Heater Placed on Top of Gas Range 513
Water Heater Supplied with High Pressure Air 593
Water Heater Valves Assure Positive and Sensitive Operation of Water and Gas to Automatic Heater 537
Water Heater with Five Series of Double Coils 538
Well Drill-Jar Composed of Two Integral Parts 186
Width of Opening Between Shutters Is Method of Measuring Candlepower with this Photometer 163

RAMSBURG, C. J. & SPERR, F. W., JR. Benzol More Valuable than Gasoline as Motor Fuel when Used Straight, and Its Effectiveness is Increased when Mixed with Latter 387
By-Product Ovens in Operation by 1918 will Save Fuel Equivalent of 9,000,000 Tons of Coal Annually 415
Explain Theory of Coking Process in By-Product Oven 376

RANGES.
Assisting the Gas Range to Do Its Work Efficiently 420
Gas Range Has No Real Competitor at Present, But Efficiency Should Be Improved to Safeguard Future Business 411
Recommend Standard Names for Gas Range Parts 23
Would Make the Selection of Domestic Ranges for Sale by Gas Company Essentially an Engineering Proposition 315
Rapid Depletion of Fuel Resources Not Due to Necessary Consumption 372
Rate and Ultimate Temperature Heating and Methods of Cooling Important Operations in Steel Hardening 281

RATES & RATE MAKING.
Adoption of New Rate Schedule Brings Many Advantages to Martinsburg Gas Company 99
Another Company Raises Rates in Pennsylvania 596
Bangor, Me., Company Files Petition for Rate Increase 475
Cambridge Company Announces Increase 643
Commission Rulings in Allentown-Bethlehem Gas Company Case. 380
Concerning Rate Increases 588
Correct Financial Plan the Most Important Element in the Success of a Public Utility, A 633
Hearing on Rate Increase at Brazil, Ind. 597
Henrico County Rates to be Lowered 234
Increase Asked for Eau Claire, Wis., Rates 573
Increase Granted at Independence, Kan. 595
Increase in Rates at Amsterdam, N. Y. 598
Is the Gas Industry Justified in Asking for an Increase in Rates? 444
Kansas Rate Fixed at 35 Cents by Conference 331
Lack of Knowledge of Risks of Business the Basis of Unreasonable Rate Demands 508
London Sliding Scale a Source of Weakness to Gas Companies in Present Crisis 467
Maine Company Raises Rates 641
Only a Prosperous Utility Can Serve the Public Satisfactorily and Acceptably 179
Plymouth County Company Increases Rates 646
Prosperous Public Utilities a Necessity to Growth of Other Industries 345
Public Should be Educated to Fact that Regulation Involves Increase in Rates as Well as Reduction 470
Rate Adjustments 469
Rate Adjustment and Proper Application, Keys to Success in Industrial Field 410
Rate Increase at Crisfield, Md. 623
Rates 325
Rates Decrease for Fuel—Increase for Illumination 46
Rates Go Up in Akron, Ohio 477
Rates Go Up at Portsmouth, N. H. 544
Rates in Calais, Me., Come Down. 22
Rate Increase in Fayette County, Pa. 404
Rate Increased by Natural Gas Company in New York State .. 572
Request for Lower Heat Standard in New Jersey 570
65 Cent Rate is New Plan at Chicago 20
Sliding Scale for Small Towns, The 108
Springfield, Mass., Announces Increase 597
Supply Proposal Made by West Virginia Company 46
Taking Counsel with Regulatory Bodies in Relation to Increased Cost of Materials 446
